

Smart. Safe. Solutions.

FIRE & LIFE
SAFETY

Trusted Technology Leaders.

Since 1974, Martin Systems has helped people and businesses be better prepared and protected with the most modern technology in security, fire, and life safety.

Through our guided discovery process, we simplify complex technologies by engineering compliance-based products and services that solve problems.

SMART. SAFE. SOLUTIONS.

It all starts with our guided discovery process. We will help you understand your true technology needs—engineering solutions that work best for you.”

Smart Technologies

Fire & Life Safety

You never think you'll need fire and life safety solutions, until you do. When lives are on the line, and timing is of the essence, our technology is there to protect.

- NICET Certified Engineers
- Licensed Engineers
 - WI Designer of Engineering
 - WI Certified Electrical Designer
 - WI Certified CAD Technicians
- Meet U.L., NFPA, IBC guidelines

Verizon Frontline for First Responders Partner

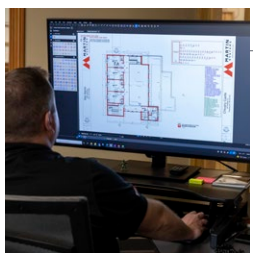

Proactively works with AHJ

“Accuracy in fire alarm and life safety systems is a top priority at Martin Systems. Our engineering process not only delivers budget sensitive life safety systems and solutions, but we can also be smart about how to meet code compliance.”
—Jason Karnz, Fire Division Manager

Fire Alarm Systems

We have you covered...and compliant with high-touch personal support from first plan submittal and acceptance to final test and commissioning.

FIRE ALARM PLANNING, DESIGN AND ENGINEERING

Put a better plan to action.

Beyond our leading technology, we often meet or exceed spec or RFP requirements with our creative, cost-effective solutions.

INSTALLATION, SERVICE, AND 24HR MONITORING

End-to-end protection starts here.

Our specialty is smarts and parts, design-build, system upgrades, add-on system requirements, and code-required installations—on time and under budget.

TESTING AND FIRE ALARM INSPECTION

We've got you covered...and compliant.

Our automated system will notify and automatically schedule a service technician to test and inspect your alarms for compliance when required.

DAS & BDA EMERGENCY RESPONDER COVERAGE

Get the right people the right message.

Communication is critical. Call on Martin to make sure your two-way radios are designed, installed and certified to work throughout your entire property.

Life Safety Solutions

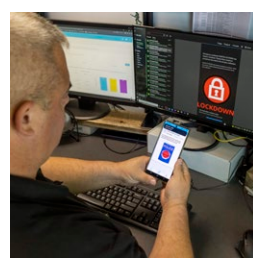

Our response to active threats is to provide our customers with leading life safety technology focused on speed, agility, and communications.

ACTIVE THREAT & LIFE SAFETY SYSTEMS

Reduce the life and death gap.

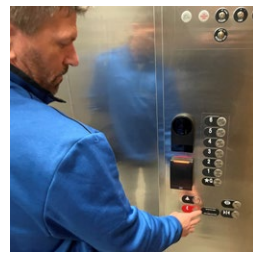

Manage crises quickly, efficiently and effectively. Our Active Threat System features real-time mass notification and law enforcement involvement.

MASS COMMUNICATION SYSTEMS

Get the word out.

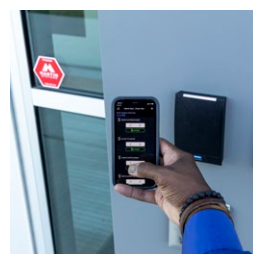

Martin mass communication systems were built to save lives and follow NFPA 72 chapter 24 guidelines as part of your emergency response plan.

AREA OF REFUGE – ELEVATOR EMERGENCY CALL

Step in. Make the call. Stay safer.

Two-way safety communication systems are required per local and state codes. Protect your tenants' lives with a modern approach.

HEALTH SCREENING AND SAFE PASSAGE SYSTEMS

Manage the health risks.

Turn to Martin to upgrade your entrances with touchless, frictionless hands-free access control for your visitors, vendors and staff.
