HOME THEATER

No need to go out to the movies. Enjoy the same high-definition audio and video experience from the comfort of your own recliner.

SECURITY & FIRE PROTECTION

Keep your family and property safe with multiple types of sensors and detectors, all monitored by a UL-listed Central Monitoring Station.

REMOTE ACCESS

Control your home from anywhere with easy-to-use smart device apps.

VOICE CONTROL

Just say it, and it's done. Secure voice control allows for complete control of any system in and around your home.

CLIMATE CONTROL

Be comfortable at home. Save energy when away. Monitor environmental sensors for low temperature and freeze alerts.

LIGHTING CONTROL

Set moods for dining, movies or entertaining. Program exterior lights to automatically turn on and off. Customize security lighting for the "lived-in" look when on vacation.

MOTORIZED SHADES

Control the sunlight to conserve energy, create privacy at night, and wow your friends by operating your stylish motorized shades at the touch of a button.

SECURITY CAMERAS

Monitor live activity around your home or view recorded videos of previous events. See what happened to the missing package from your porch.

WHOLE-HOME AUDIO/VIDEO

Stream your favorite music or watch the big game anywhere in or outside your home.

DISTRIBUTED INTERNET & WIFI CONNECTIVITY

Spread the wireless experience throughout your home and beyond with the coverage you need. WIFI access to detached buildings, pool areas, docks or anywhere else you can imagine.

VEHICLE DETECTION

Get an audible chime when a vehicle is entering the driveway, as well as receive text notifications.
